BAG-IN-BOX PARA LA INDUSTRIA MINORISTA DE BEBIDAS

SCHOLLE PACKAGING KEEPS BEVERAGES FLOWING

Scholle Packaging's products are designed to enhance institutional and consumer convenience along with maximizing space utilization for distributors. Bag-in-box also helps to differentiate your product with unique package design.

Scholle FridgeCube™

BENEFITS OF BAG-IN-BOX FOR RETAIL APPLICATIONS

For The Beverage Processor

Using bag-in-box for beverage packaging differentiates a product in many ways. By utilizing a wide variety of shapes and sizes, we can create a tailored package for your unique needs while providing a large surface for graphics and branding. Bag-in-box is extremely efficient to ship and store, with unfilled bags requiring up to 88% less storage space than bottles. Aseptically-filled, bag-in-box also simplifies your supply chain by eliminating the use of costly refrigeration.

For The Consumer

With its unique, ergonomic design, the Scholle FlexTap® fits naturally in any hand, allowing for easy use and evacuation. The package can hold up to 20 liters and is easy to transport and store for use in the home, office, or at outdoor events. After the beverage is gone, the box can be easily recycled.
